# Getting started with theme customization

Cartzy enables you to customize your store theme layout with its modern, engaging, and handy UI features. You can also preview the changes in real-time as you make edits. You can edit your store layout with a few clicks as mentioned below.

1. Go to **Store Management > Theme >** click the **Customize** button. If you click the **Preview Your Store** button, you will be able to see how your store currently looks.

2. Upon clicking the **Customize** button, the store theme editor page will be opened. It contains the following sections:

- A menu bar on the top with options for page and display mode selection.
- Editing options in the left panel of the page.
- Live-preview on the right side of the page.

So the ideal order of steps to edit and preview changes in real-time would be:

1. From the menu bar, select the page you want to edit, or the page that contains the section you want to edit.

2. Use the editing panel on the left to make changes

3. Preview the changes on the right side. Choose the **mobile/desktop** view from the menu bar to see both (mobile and desktop) versions of your store.

4. Save the changes.

To go back to the main **Themes** page, click the **back arrow** option given at the top left corner of the page.
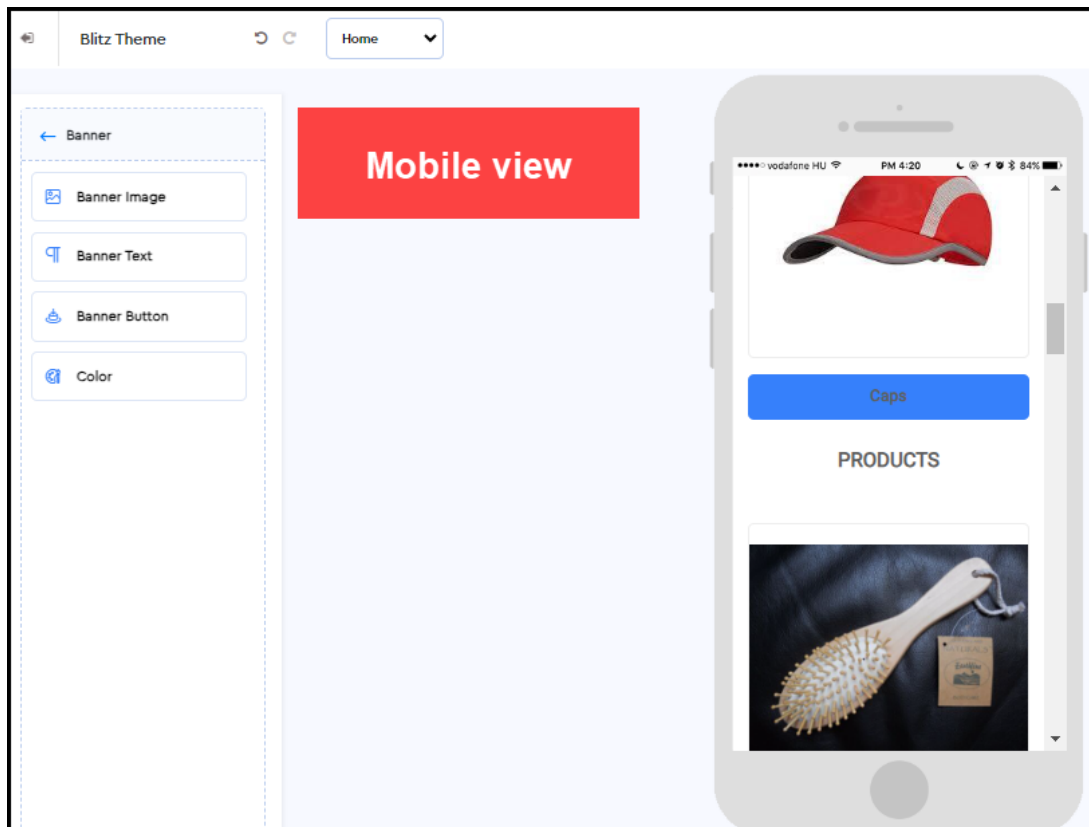

Menu bar

There are four options given in the menu bar as elaborated below.

1. Page selection: Using the dropdown menu on the left side of the menu bar, you can select the store page that you want to customize. For example, if you want to modify the layout of the **"All Products"** page on your store, you will select **Products** from the dropdown.

2. Display mode: Using the dropdown menu on the right side of the menu bar, you can switch between the Mobile and Desktop versions of your store and view your store theme edits.
3. Preview Store: You can preview your store in a new tab by clicking the **Preview Store** button. It will enable you to visualize your store layout on the web to get an idea of how it will look when launched.

4. Save: Whenever you make changes to the theme of your store, you need to click **Save** to keep the new settings. If you don't click **Save**, you will lose your customization.
Editing Panel (on the left)

In the editing panel, eight editable options allow you to edit each section of your store layout with great flexibility. Learn more about editing the main sections of your store theme.

Theme Settings

The options under **Theme Settings** enable you to configure the overall settings of your

store theme. [Learn more about the global customization of your store theme](#).
