View your store

Syeda Khadija Phool - 2025-01-22 - Store Management

Once you have set up your Cartzy store, you can directly view it from within your admin panel. Click on the **Online Store** option in the left menu, and your store website will open in a new tab.

Here, you can see your store theme in live mode, and view the rest of the layout features in addition to the products that you added to your store.
